

KidSport™ Iroquois Falls

Athlete Financial Assistance

We believe Sport is one of the few activities where children have the potential to experience positive physical, mental, emotional and social development all in the same environment. Sport has a powerful influence over children, acting as a prevention tool for many societal problems.

We also believe every child has a right to participate in sport. We recognize that not all families can afford to have their child in organized sport. If your child is not enrolled in sport because you do not have the financial means we may be able to assist you. Contact us.
